

Year One Optional Homework

Every week children have reading homework and some other activities we ask them to do. If they would like to, your child might like to work on an optional challenge activity. Have a look at the list below and choose a project which inspires them. Please make sure your child brings their completed project in to school on Monday 11th of December, and we will display and celebrate their hard work!

Giving Citizen

Share with your family everything you need to do to keep safe in the winter. Could you make a poster to display at school to show others how to stay safe?

Resilient Learner

Go outside on a night that it is possible to see the moon. Remember to take an adult with you. Draw what you can see. Repeat this on another night does it look the same? Perhaps you could repeat this over a week.

Original Thinker

Can you create a 3D rocket that you could travel in to get to space? How would it work? What would you use to build it? What do you need to fit in it?

Wise Worker

We have been looking at and reading alien words. Can you come up with your own alien language and teach it to someone else? Write down 10 new words with their meanings to share with the class for example "*bubaloo*" means hello!
