

Year One Optional Homework

In addition to reading daily at home, if they would like to, your child might like to work on an optional challenge activity. Have a look at the list below and choose a project which inspires them. Please make sure your child brings their completed project in to school by Monday 9th July, and we will display and celebrate their hard work!

G

Giving Citizen

Use your imagination and make someone some treasure that has been found in a treasure chest under the sea.

R

Resilient Learner

Can you make a list of all the under sea creatures you know? Can you put them in alphabetical order?

O

Original Thinker

Create a collage of an underwater scene, using lots of colours and different textures.

W

Wise Worker

Look at non-fiction texts and create a fact file about an animal that lives under the sea- where is their habitat? What do they eat?
