

Year Two Optional Homework Autumn 1

This half term we are learning all about Animals. If they would like to, your child can take part with an optional challenge activity. Please encourage them to have a look at the list below and choose a project which inspires them.

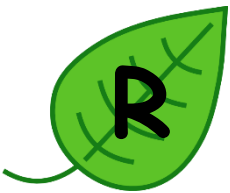

Please make sure your child brings their completed project in to school by Monday 16th October, and we will display and celebrate their hard work!

We always look forward to seeing how creative they have been. Please remember if you are struggling with resources or need any help or support, do not hesitate to come and speak with one of the staff.

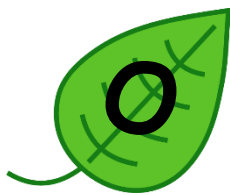

Giving Citizen

Research a charity that helps Animals. You could make a fact file about the charity. You could write to persuade someone to donate money to the charity.

Resilient Learner

Research an endangered animal. Where is their habitat? What do they eat? What do they look like? You could make a poster about them to make others aware.

Original Thinker

Create your own unique animal. You could create one using features of other animals. Give it a name and make sure you draw a detailed picture with labels.

Wise Worker

Research different animal's prints/patterns. Represent these in a creative arty way. You could use paint, pencils, crayons, you decide.

Have fun, we can't wait to see how you GROW.
