

Year R Optional Home Learning- Spring 2.

This half term we would like as many children as possible to complete an optional challenge activity.

Please have a look at the list below and see if you and your child feel inspired to 'have a go' at any of them. Please make sure your child brings their completed project in to school by Friday 23rd March.

This term's home learning links to our topic of 'Tell me a Story'.

- Create a 3D model or a collage of something from a traditional tale or a story of your child's choosing; for example, a house from the story of The Three Little Pigs. Can you then describe what you have done to your class?

- Draw a character from a story book. Where is the character? Have you shown this in your picture? Can you write a sentence or two using adjectives to describe them?

- Go and explore some woods/forest, collect items that you find and make a woodland picture. What story might take place there?

We hope you have fun completing this home learning!
