

Little Cook's Café

Summer 1 Optional Home learning

This half term we are making our own café! For you home learning project we have the following ideas;

- Help an adult at home to plan and make a meal. Take a photograph or draw a picture of your meal to bring in. Can you write labels for the names of the different foods?

- Be creative! Make a meal on a paper plate using different materials for the food; for example, brown lolly sticks for sausages or green sticky paper circles for peas!

- Make a junk model shop selling food. What would you put on the shelves? Where is the till? What signs and labels would you need?

- Design and make a poster or menu for a café. What is your café called? What food does your café sell? Can you see the food and the price on your poster or menu?
